

**Comparison of Elements of Research
With Elements of Intervention Design and Evaluation**

Research	Intervention Design	Examples
Statement of Problem	Rationale for Intervention (Data showing improvement area/Real world problem)	1. High school graduates not college ready 2. Low percentage of Developmental English students transitioning to college English course
Review of Literature	Review of Literature/Best Practice—Rationale for the proposed intervention strategy	1. Summer Bridge Program (Math Camp) 2. Learner-Centered Curriculum Mapping
Purpose of the Study	Purpose of the Intervention	See Summer Bridge Program Evaluation Plan & English Curriculum Alignment Evaluation Plan
Research Questions		
Research Hypothesis	Outcomes/Achievement Targets	
Method:	A. Population/Sample	
A. Population/Sample B. Research Design C. Data Collection D. Data Analysis	B. Intervention Design (Quasi-Experimental Design) C. Measures/ D. Data Analysis	
Results/Findings	Results/Findings	
Implication/Recommendation	Implication/Recommendation	

Elements of Evaluation
